

# Ultimate Spectroscopy and Imaging Lab Summer Camp

## About the Summer Camp

USIL summer camp is suitable for the new coming graduate students and the third and fourth year undergraduate students. We are honored to invite 5 foreign professors to give us some tutorial on spectroscopy and share their experience of doing research. That might be helpful for you to find out the inspiration and interest in spectroscopy. Besides, the atmosphere of poster time is different from the serious conference style. Instead, we will prepare some food and beverages. You can share your research and discuss with other in a casual, laid-back atmosphere. Also, if you want to study abroad, it is a nice opportunity to get acquainted with the foreign professors. If you want to join us, please see the contact information below or visit our website : <http://usilab.nctu.edu.tw/>
